Summary

Educator and technology professional completing graduate degrees in Teaching Computer Science K–12 and Data Science. Experienced coordinating complex work across educators, learners, researchers, engineers, and nontechnical stakeholders; developing and revising educational materials; documenting requirements and results; and using data to improve program delivery. Brings more than ten years of professional engineering experience, clear written communication, and an inclusive, service-oriented approach.

Program and Technical Strengths

Education programs	Lesson and activity development, standards alignment, assessment, facilitation, feedback cycles, learner support
Coordination	Requirements clarification, scheduling and task tracking, cross-functional collaboration, documentation, quality review, stakeholder communication
Inclusive practice	Universal Design for Learning, disability inclusion, accessible communication, equitable participation
Data and tools	Excel, Python, SQL, R, data-quality validation, analysis, visualization, Git/GitHub, Jupyter, LaTeX, collaboration platforms

Education and Program Experience

Environmental Science Camp Teacher	Jul 2026
<i>University of Rochester / Freedom Scholars</i>	<i>Rochester, NY</i>
Co-developed and facilitated an environmental-science learning sequence, coordinated materials and youth-facing activities, and prepared a public poster showcase.	
Computer Science Teacher Candidate	Feb 2026–May 2026
<i>University of Rochester / Pine Brook Elementary School</i>	<i>Rochester, NY</i>
- Co-designed standards-aligned coding, robotics, digital-fluency, and responsible-AI instruction; adjusted materials using student and mentor feedback. - Coordinated visual, hands-on, verbal, whole-class, small-group, and one-to-one learning supports for varied K–5 learners.	
Graduate Assistant, Quantum and AI Research	Fall 2025–Present
<i>Rochester Institute of Technology</i>	<i>Rochester, NY</i>
- Coordinate reproducible experiments, shared data, validation, reporting, and presentation artifacts across faculty-led research priorities. - Translate complex requirements and results into organized technical documentation for collaborators and varied audiences.	

Professional Experience

Data Solutions Engineer	Sep 2022–Aug 2024
<i>VEDADATA Inc.</i>	<i>New York, NY</i>
- Coordinated requirements, data workflows, quality checks, documentation, and result reviews across technical and nontechnical teams. - Built dependable reporting and analytics-ready processes supporting business operations and informed decisions.	
AI Data Solutions Engineer	Jan 2021–Sep 2022
<i>VIOME Inc.</i>	<i>New York, NY</i>
Developed and documented healthcare machine-learning workflows, evaluation results, and cross-functional delivery artifacts.	

Education

M.S., Teaching Computer Science K–12 , University of Rochester	Expected December 2026
NSF Robert Noyce Scholar; advanced certificates in teaching students with disabilities and digitally rich teaching	
M.S., Data Science , Rochester Institute of Technology	Expected December 2026
M.S., Computer Science , Rochester Institute of Technology	2015
Dual B.S., Computer and Electrical Engineering Technology , Farmingdale State College	2012
