Profile

Computer science educator and applied AI researcher connecting high-school-ready AI learning, inclusive curriculum design, disability access, and reproducible technical practice. Combines K–12 teacher preparation with graduate work in data science, AI, bioinformatics, and responsible technology.

Teaching and Curriculum Experience

Computer Science Student Teacher

Feb–May 2026

University of Rochester / Pine Brook Elementary School

Rochester, NY

- Designed and revised standards-aligned coding, robotics, digital-fluency, and responsible-AI lessons using backward design and Universal Design for Learning.
- Used modeled steps, multimodal directions, partner roles, formative assessment, and varied participation to preserve rigor while expanding access.

Environmental Science Camp Teacher

July 2026

University of Rochester / Freedom Scholars Planet Protectors

Rochester, NY

- Co-designed and facilitated an environmental-science unit connecting microplastics, data, environmental justice, and a youth-facing public showcase.

Tutor and Academic Mentor

2021–Present

Independent Practice; Varsity Tutors, 2022–2026

Remote / Rochester, NY

- Supported computer science, data science, statistics, and mathematics through examples, diagrams, guided practice, and patient debugging.

Research and Technical Experience

Graduate Assistant, Quantum and AI Research

Fall 2025–Present

Rochester Institute of Technology, Software Engineering

Rochester, NY

- Build reproducible evaluation workflows for adaptive decision-making, fairness, and quantum-network routing; translate results into reports, presentations, and teaching-ready explanations.

Data Solutions Engineer

Sep 2022–Aug 2024

VEDADATA Inc.

New York, NY

- Built maintainable data workflows, validation checks, and documentation for technical and nontechnical collaborators.

AI Data Solutions Engineer

Jan 2021–Sep 2022

VIOME Inc.

New York, NY

- Developed and evaluated machine-learning workflows for healthcare data, connecting technical choices with reliability, communication, and user impact.

Education

M.S., Teaching Computer Science K–12, University of Rochester

Expected Dec 2026

NSF Robert Noyce Scholar; Advanced Certificates in Teaching Students with Disabilities, All Grades, and Digitally-Rich Teaching in K–12 Schools

M.S., Data Science, Rochester Institute of Technology

Expected Dec 2026

M.S., Computer Science, Rochester Institute of Technology

2015

B.S., Electrical Engineering Technology; B.S., Computer Engineering Technology, Farmingdale State College

2012

Selected Strengths

Inclusive curriculum and assessment design | UDL and accessibility | Responsible AI and data literacy

Python, Java, C++, JavaScript, SQL, R, Git/GitHub, Jupyter, and LaTeX
